## Non-GAAP Financial Measures

The non-GAAP measures should not be considered as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. A reconciliation between GAAP and non-GAAP financial data is included in the supplemental financial data attached to this press release. Broadcom believes non-GAAP financial information provides additional insight into the Company's on-going performance. Therefore, Broadcom provides this information to investors for a more consistent basis of comparison and to help them evaluate the results of the Company's on-going operations and enable more meaningful period to period comparisons.

In addition to GAAP reporting, Broadcom provides investors with net revenue, net income, operating income, gross margin, operating expenses, cash flow and other data on a non-GAAP basis. This non-GAAP information excludes amortization of acquisition-related intangible assets, stock-based compensation expense, restructuring, impairment and disposal charges, acquisition-related costs, including integration costs, purchase accounting effect on inventory, litigation settlements, loss on debt extinguishment, gains (losses) on investments, income (loss) from discontinued operations, non-GAAP tax reconciling adjustments, and other adjustments. Management does not believe that these items are reflective of the Company's underlying performance. Internally, these non-GAAP measures are significant measures used by management for purposes of evaluating the core operating performance of the Company, establishing internal budgets, calculating return on investment for development programs and growth initiatives, comparing performance with internal forecasts and targeted business models, strategic planning, evaluating and valuing potential acquisition candidates and how their operations compare to the Company's operations, and benchmarking performance externally against the Company's competitors. The exclusion of these and other similar items from Broadcom's non-GAAP financial results should not be interpreted as implying that these items are non-recurring, infrequent or unusual.

Free cash flow measures have limitations as they omit certain components of the overall cash flow statement and do not represent the residual cash flow available for discretionary expenditures. Investors should not consider presentation of free cash flow measures as implying that stockholders have any right to such cash. Broadcom's free cash flow may not be calculated in a manner comparable to similarly named measures used by other companies.
